Outlook RSVP Tool

Background & Purpose

■ The Problem

- ✉ Event/meeting invitations via Outlook are currently **fully manual**: emails drafted one by one, Yes/No/Maybe votes counted by hand, reminders sent individually
- 🔗 Attendance, payment, and gift tracking after events also rely on scattered Excel files — error-prone and time-consuming to consolidate

■ Objectives

- ✦ Automate the entire event lifecycle: invite → collect votes → send reminders → track attendance/payment → track gift contributions → archive history
- 🔗 Support multiple languages (English/Japanese/Vietnamese/Bilingual) via a Copilot Chat bridge, with no Copilot license required

Outlook RSVP Tool

App Process Overview

01

Tab 1 – Event Setup

Outlook RSVP Tool

1. Event Setup 2. Recipients 3. Compose & Send 4. Collect Responses 5. Attendance & Payment 6. Gift Contribution 7. Event History

Event details (these fields auto-fill into the invite email) Event mode: Event + Gift

Event Name: Farewell-Party_Tu-san

Event ID (no spaces/accents, must be unique): Farewell_Tu_Jul26

Location: ひびき庵別館 東松山駅前3号店

Expected event budget (e.g. "5,000 JPY / person"): 6000 JPY

Expected gift budget (e.g. "3,000 JPY / person"): 500 JPY

Event Date: 31/07/2026

Start time (HH:MM): 18:00

End time (HH:MM): 20:00

Event response deadline: 22/07/2026

Gift contribution deadline: 30/07/2026

Organizer (contact person for gift contributions): Vo Hoai Linh

Guest of Honor (who the gift is for): Phan Minh Tu

Organizer note (free text — you can write in any language; translate it per-language on the Compose tab): Please respond before the deadline so we can prepare accurate numbers.

Register event (save to History + reset form for a NEW event)

→ Saves as a NEW event in History, then clears this form for the next one.

Main interface – 7 tabs of the Outlook RSVP Tool, Tab 1 open

Chapter 1: Tab 1 – Event Setup

Entering Event Details & Reusing Past Events

■ Entering Event Details

- 📅 Event name, Event ID (unique), location, start/end date & time
- ⚙️ Expected budget for the event & for the gift
- 🕒 Separate deadlines for RSVP response and gift contribution
- ✉️ Event mode: **Event only** or **Event + Gift**
- 📝 Organizer note — free-text, written in any language

■ Reusing a Past Event

- 🔄 **Reload setup** from a past event saved in History — no need to re-enter everything
- 📝 **Update this event** — update changed details WITHOUT re-sending the invite email

Event details entry form

Reload / Update setup from Event History

Browse...

Import list

Export to Excel

Expand group emails in list (incl. sub-groups)

→ Any row that is a company Distribution List (group email, e.g. 'EET Employees All') gets replaced with its REAL indi who hasn't responded yet.

Save recipients now

→ Manually save this list to the database for the current Event ID (Tab 1) right away. This already happens automatically after every change (Impc row/Expand group) — use this button only if you want to be sure right now.

Search (name or email):

× Clear

Name	Email
EET-employee-all	hwom.50030430-mgt@bcn.bosch.com
Nguyen Duc Cuong (BGSJ/EEG1 PS-SB/EET1-JP)	Cuong.NguyenDuc2@vn.bosch.com
Le Minh Hai (BGSJ/EEG1 PS-SB/EET2-JP)	Hai.LeMinh@vn.bosch.com
Tamilarasan Lakshmanan (BGSJ/EEG1 PS-SB/EET2-JP)	Lakshmanan.Tamilarasan@jp.bosch.com
Vo Hoai Linh (BGSJ/EEG1 PS-SB/EET1-JP)	HoaiLinh.Vo@jp.bosch.com

Recipient list (Recipients)

Chapter 2: Tab 2 – Recipients

Import, Group Expansion & Search

■ Importing & Expanding the List

- ✦ **Import list** directly from an existing Excel file
- 🔗 **Expand group emails** — automatically replaces a Distribution List (e.g. "EET-employee-all") with the actual individual members, including sub-groups
- 👤 Add or remove recipients manually right in the list

■ Quick Search

- 🔍 Search by name or email, filtering the list instantly

Import from Excel file:

☒ Expand group emails in list (incl. sub-groups) → Any row that is a company Distribution List (group email, e.g. "EET Employees All") gets replaced by the actual members. This can track exactly who hasn't responded yet.

→ Manually save this list to the database for the current Event ID (Tab 1) right away. This already happens automatically after (Import/Add/Delete row/Expand group) — use this button only if you want to be sure right now.

Import from Excel & expand group emails

Search (name or email):

Tab 3 – Compose & Send

Outlook RSVP Tool

1. Event Set 2. Recipient 3. Compose & Send 4. Collect Responses 5. Attendance & Payments 6. Gift Contributions 7. Event History

Send mode: Send first Invite Update invite adds a change-notice banner + different subject prefix, but still lets people re-vote. Gift Contribution Notice sends a Guest-of-Honor Organizer/Budget notice from Tab 1 — NO voting buttons (see Event mode on Tab 1).

Email language: English

Subject preview: [Confirm-TB2026-Q3] Team Building Q3 2026 - Please Confirm Attendance
Greeting (auto, appears first): Hello everyone.

EDITABLE part — YOUR background notes for this specific event, shown right after the greeting (write in any language; translate below if needed):

Please respond before the deadline so we can prepare accurate numbers. [not yet translated - using original text]

FIXED part — auto-filled from Tab 1 (event name/date/location/deadline/budget) plus the standard voting wording, shown AFTER your note. You CAN edit this box — click 'Save as default' below to reuse your edited wording for future events too:

Our team is organizing "Team Building Q3 2026" on 24/08/2026.
Response deadline: 13/08/2026

>>> PLEASE CLICK ONE OF THE 3 BUTTONS "Yes / No / Maybe" AT THE TOP OF THIS EMAIL <<<
(The voting buttons usually appear in the InfoBar above the message, or under the "Respond" section of the Ribbon in Outlook desktop - Outlook Web supports this too)
⚠ Not sure where the button is? See the attached image below for a visual guide.

Refresh preview from Tab 1 / Tab 2 Save FIXED wording as default for this language Reset FIXED wording to system default

Customize Copilot prompt (for single-language targets — icons already built in):

This box shows the exact prompt that will be sent to Copilot (system default, already includes emoji-icon instructions 🗨️ 🗑️ 🔄 📄 📧. Edit it freely and click 'Save to keep your version — it persists until you Reset. The bilingual target uses its own built-in default (see 'Show system default prompt' below).

Translate the following internal event email into [TARGET LANGUAGE]. Reply with ONLY the final, ready-to-send translated email as continuous text — do NOT add section labels, headers, quotation marks, or any explanation/commentary about your process. Keep the same paragraph order as the original. Do not merge, duplicate, summarize, or repeat any sentence — translate everything exactly once. Keep a polite, professional tone suitable for a workplace event email, and keep names, dates, and numbers exactly as written.

Also make the email more visually scannable by adding ONE relevant emoji icon inline right before these types of information (do not add a legend/key — just place the icon naturally in the sentence):
🕒 before any time / date / deadline

Save custom prompt as default Reset prompt to system default Show system default prompt (single + bilingual)

Translate the FULL email (greeting + note + event details) via Copilot copy/paste bridge:
(Source is the language currently shown above — switch off Bilingual to pick a source)

Translate into: Japanese Copy full email + prompt to clipboard (for Copilot)

Paste the translated result from Copilot here — this will be used as the complete, ready-to-send email (no section labels).
.. Pasting a NEW result? Click: 🗑️ Clear FIRST — pasting into a non-empty box appends instead of replacing, combining old + new text.

Save as translated version for this language Clear saved translation for this language Clean up (fix lost spaces/line breaks)

Full translated email ready: EN ✕ | JA ✕ | VI ✕ | Bilingual ✕

Send to (optional override — e.g. a department group email).
Leave blank to send individually to everyone on Tab 2.
Tab 2's roster is always used for vote tracking either way.

Draft & send the invite email (Compose & Send)

Chapter 3: Tab 3 – Compose & Send

Send Modes & Voting

3 Send Modes

- ✉ **Send first Invite** — send the initial invitation
- 🔄 **Send update Invite** — adds a change-notice banner, recipients can still re-vote
- 💝 **Send Gift Contribution Notice** — notifies the Guest of Honor about contributions, no vote buttons

Voting & Send Options

- 📧 Emails automatically include **3 voting buttons** — **Yes/No/Maybe** — right inside Outlook (InfoBar or Respond section)
- 👤 Can send to a group address instead of individually, while Tab 2's list is still used to track votes
- 🛡️ Option to preview in Outlook before clicking Send, or send immediately

The screenshot shows a 'Send mode' dropdown menu with three options: 'Send first Invite', 'Send update invite', and 'Send Gift Contribution Notice'. A mouse cursor is hovering over the 'Send first Invite' option. To the right of the dropdown, there is a small text box explaining the 'Update invite' mode: 'Update invite' adds a change-notice banner + different subject prefix, but still lets people re-vote. 'Gift Contribution Notice' sends a Guest-of-Honor/ Organizer/Budget notice from Tab 1 — NO voting buttons (see 'Event mode' on Tab 1).

Send mode dropdown

The screenshot shows the 'Voting options (leave as-is unless needed):' section. It includes a text input field for 'Send to (optional override — e.g. a department group email). Leave blank to send individually to everyone on Tab 2. Tab 2's roster is always used for vote tracking either way.' Below this is a dropdown menu for 'Voting options' with 'Yes;No;Maybe' selected. There is an unchecked checkbox for 'Send immediately without review (unchecked = open Outlook for you to click Send)'. At the bottom is a button labeled 'Send Invite via Outlook (Voting Buttons)'.

Voting options & send button

Chapter 3: Tab 3 – Compose & Send Multi-Language Translation via Copilot

■ Composing Content — Fixed & Free-Text Parts

- 📄 **Editable** part: event-specific notes (written in any language)
- 📅 **Fixed** part: auto-fills name/date/location/deadline from Tab 1, plus instructions for clicking the vote buttons

■ Translation Bridge via Copilot Chat

- 🌐 Choose target language: English / Japanese / Vietnamese / **Bilingual**
- 📄 **"Copy full email + prompt"** button — copies the full content plus translation prompt, ready to paste into Copilot Chat
- 📄 Paste Copilot's result back into the box below — the tool uses it verbatim as the outgoing email
- ✍️ A "Clean up" button fixes spacing issues introduced when copying from Copilot

Email language: English

Tab 4 – Collect Responses

1. Event Set	2. Recipient	3. Compose & Send	4. Collect Responses	5. Attendance & Payments	6. Gift Contributions	7. Event History
--------------	--------------	-------------------	----------------------	--------------------------	-----------------------	------------------

How 'Scan Inbox' works — read before using

- Scans the ENTIRE Inbox (every folder, including subfolders) for emails whose Subject contains the EXACT current Event ID from Tab 1 — it doesn't matter whether the email is the original invite, an update invite, or a reminder, as long as the Subject contains the Event ID it counts.
- For each sender, only the MOST RECENT vote is kept if they clicked more than once (votes are not added up).
- Does NOT re-run automatically when you change the Event ID on Tab 1 — the table below only updates when you click 'Scan Inbox for Vote results'. If you switch to a different event and forget to click it again, the table will still show the results of the OLD Event ID (check the status line right below to be sure).

Showing results for Event ID 'Farewell_Tu_Jul26' — scanned at 2026-08-01 15:11.

Scan Inbox for Vote results

Save event

☒ Tool automatically scans ALL folders for vote results (powered by AdvancedSearch)

☒ Responded / not yet responded (based on Tab 2 + scanned votes):

Tick the "Manual edit" checkbox (or double-click the "Vote" cell) to correct someone's vote by hand (Yes/No/Maybe) — useful when they just told you verbally or changed their mind instead of clicking the button in the email. Manually-edited rows are shown with a light blue background and stay checked. Un-ticking the checkbox for an already manually-edited row lets the NEXT "Scan Inbox for Vote results" freely update it again from real emails; leaving it ticked KEEPS your manual value even after re-scanning, unless a NEWER email vote is found for that same person.

Send Calendar Invite to the list above

Yes/Maybe list & sending the Calendar Invite

Attendance & Payment tracking (fill in after the event):

Double-click "Name"/"Vote"/"Amount" to edit; "Actual Attend" opens a Yes/No dropdown; click a row's "Free" cell to toggle exemption. Setting "Actual Attend" to "Yes" auto-fills Amount from Tab 1's "Expected event budget" (0 if marked Free) — you can still overwrite Amount by hand afterward. Select rows and use Ctrl+C / Ctrl+V to copy/paste to or from Excel, or Delete to clear a row's tracking fields. Every change is saved automatically to the Attendance_Payment_{EventID}.xlsx file.

 Refresh list from Tab 4

 Export to Excel

No.	Name	Vote	Actual Attend	Free	Amount
1	Vo Hoai Linh (BGSJ/EEG1)	Yes	Yes	☐	6,000

Total actual attend: **14** Total collected amount: **82,000**

Amount paid:

Remaining amount: **12,000** (type the amount actually paid out; remaining = Total collected - Amount paid)

Detailed Attendance & Payment tracking table

Chapter 5: Tab 5 – Attendance & Payment

Automatic Thank-You Email

■ Post-Event Thank-You Email

- ♥ Automatically sent to everyone marked "Actual Attend" = Yes
- ✍ Automatically attaches the attendance/payment Excel report + the event's Calendar Invite
- 🔄 Content auto-fills attendee count, total collected, and amount already paid

Thank You email (send after the event):

Sent to everyone marked "Actual Attend" = Yes above. Automatically attaches the Attendance & Payment Excel report (with everyone's attendance/cost info), and the Calendar Invite for this event if it can be found in your Calendar (best-effort — see the confirmation message after sending).

Export to Excel

→ Contribution data is saved automatically to the database every time you check/uncheck someone — this button only creates an Excel file when you need one to share or archive. Use ↗ Load contribution list from file' above to import/merge from a specific Excel file instead.

Compose & send a reminder email to people who haven't contributed yet

Language: English

Regenerate reminder text (from Tab 1)

✕ Attach original Gift email (looked up from Sent Items)

Reminder email content (review/edit before sending):

Open reminder email for 1 people who haven't contributed

→ Always opens the email compose window in Outlook so you can review it and click Send YOURSELF — there is no auto-send option here.

Send contribution report to selected people

Sent to everyone ticked in the "Send email" column above. The message body is a short summary (how many people contributed, total amount) — the detailed list (everyone who has ALREADY contributed, renumbered, without the "Send email"/"Contributed" checkbox columns) is automatically attached as an Excel file.

Language: English

Regenerate report text

Report email content (review/edit before sending):

Send report to 1 selected people

→ Always opens the email compose window in Outlook so you can review it and click Send YOURSELF — there is no auto-send option here.

Chapter 6: Tab 6 – Gift Contribution

Sending the Contribution Report

■ Report for Selected Recipients

- ✉ Sends a summary report (contributor count, total amount) to the people ticked for selection
- 📎 The full detailed list is automatically attached as an Excel file
- ✓ Always opens the Outlook compose window for review before sending — no auto-send

The screenshot shows a dialog box titled "Send contribution report to selected people". It contains the following elements:

- A paragraph of instructions: "Sent to everyone ticked in the 'Send email' column above. The message body is a short summary (how many people contributed, total amount) — the detailed list (everyone who has ALREADY contributed, renumbered, without the 'Send email'/'Contributed' checkbox columns) is automatically attached as an Excel file."
- A "Language:" dropdown menu currently set to "English".
- A "Regenerate report text" button.
- A large text area labeled "Report email content (review/edit before sending):" which is currently empty.
- A "Send report to 1 selected people" button at the bottom.
- A footer note: "→ Always opens the email compose window in Outlook so you can review it and click Send YOURSELF — there is no auto-send option here."

Chapter 7: Tab 7 – Event History

Archiving All Event Data

Central Database

- Every event, including past ones, is stored in a single database file ('rsvp_data.db')
- Any cell can be edited directly (double-click), including **renaming the Event ID** without creating a duplicate
- Export to Excel at any time for sharing or archiving reports
- Fully records: invited/Yes/No/Maybe counts, budget, income/expense, balance, reminder timestamps...

Outlook RSVP Tool

Save changes

Export to Excel

Double-click any cell below to edit it in place (or select rows and use Ctrl+C / Ctrl+V to copy/paste to or from Excel), then click "Save changes" to write your edits back to the database. (Renaming the Event ID column is supported — it moves the row under the new ID instead of creating a duplicate.) Use "Export to Excel" any time you need a report file to share or archive — the database itself is the working copy.
